and we're just tryin to survive
well if what you do to survive, kills the things you love
fear's a powerful thing,
it'll turn your heart black you can trust
it'll take your god filled soul,
fill it with devils and dust
it'll take your god filled soul,
fill it with devils and dust
(Harmonica) D D G G D A
Now every woman and every man
They wanna take a righteous stand
Find the love that god wills
 and the faith that he commands
I've got my finger on the trigger
But tonight faith just ain't enough
When I look inside my heart,
 there's just devils and dust
Well I've got god on my side
and I'm just tryin to survive
well if what you do to survive, kills the things you love
Fear's a dangerous thing,
it'll turn your heart black you can trust
it'll take your god filled soul,
 fill it with devils and dust
it'll take your god filled soul,
Α
fill it with devils and dust
