

## Canonball - Little Mix

Em                            C                            G                            D  
There's still a little bit of your taste in my mouth  
Em                            C                            G                            D  
There's still a little bit of you laced with my doubt  
Em                            C                            G                            D                            Am                            C  
It's still a little hard to say what's going on

Em                            C                            G                            D  
There's still a little bit of your ghost, your witness  
Em                            C                            G                            D  
There's still a little bit of your face I haven't kissed  
Em                            C                            G  
You step a little closer each day  
D                            Am                            C  
That I can't say what's going on

G                            C                            D  
Stones taught me to fly  
G                            C                            D  
Love taught me to lie  
G                            C                            D  
Life taught me to die  
                          Am                            G

There's still a little bit of your words I long to hear  
Em                            C                            G                            D  
You step a little closer to me  
Am                            G                            C                            D  
So close, I can't see what's going on
