Euphoria - Loreen

```
Bm                                A      G
Why, why can't this moment last forevermore?
Bm                                A      D
Tonight, tonight eternity's an open door...
Bm                               A      G
No, don't ever stop doing the things you do.
Bm                               A       D
Don't go, in every breath I take I'm breathing you...

Bm                                       A     G
We are here, we're all alone in our own Universe,
Bm                                    A         D
We are free, where everything's allowed and love comes first,
Bm                               A     G
Forever and ever together, we sail into infinity,
Bm                                     A     D
We're higher and higher and higher, we're reaching for divinity.
