Say It Right - Nelly Furtado

```
Fm
In the day
      D#
In the night
      C#
Say it right
      Bbm
Say it all
         Fm
You either got it
      D#
Or you don't
           C#              Bbm
You either stand or you fall
         Fm          D#
When your will is broken
       C#              Bbm
When it slips from your hand
          Fm              D#
When there's no time for joking
       C#              Bbm
There's a hole in the plan

   Fm            D#                  C#    Bbm
Oh, you don't mean nothing at all to me
    Fm             D#                  C#    Bbm
No, you don't mean nothing at all to me
    Fm              D#              C#    Bbm
But you've got what it takes to set me free
     Fm           D#          C#    Bbm
Oh, you could mean everything to me

       Fm          D#       C#    Bbm
I can't say that I'm not lost and at fault
       Fm        D#          C#               Bbm
I can't say that I don't love the light and the dark
       Fm       D#      C#       Bbm
I can't say that I don't know that I am alive
   Fm          D#            C#
And all of what I feel I could show
     Bbm
You tonite, you tonite

   Fm            D#                C#    Bbm
Oh, you don't mean nothing at all to me
    Fm           D#                  C#    Bbm
No, you don't mean nothing at all to me
    Fm              D#              C#    Bbm
But you've got what it takes to set me free
```

```
      Fm                D#              C#      Bbm
Oh, you could mean everything to me

         Fm                     D#
From my hands I could give you
      C#          Bbm
Something that I made
            Fm                D#                C#              Bbm
From my mouth I could sing you another brick that I laid

         Fm                     D#    C#          Bbm
From my body I could show you a place God knows
              Fm                     D#
You should know the space is holy
         C#                  Bbm
Do you really want to go?
```
