## She Got Style - Never Shout Never

```
Girl you got style
That's what I love about you
The way that you sit back (oh, how you sit back)
And watch this grow
You got dreams
And therefore I believe in you
All the small town people with their big remarks
They ain't got jack to say about my movie star
She's got style
G D Em C D x2
                G
If its not the fact that I'm a wee bit younger
Or the truth that I'm so naive
My heart keeps leaping back to you
Like a dog tied to a tree
I know it sounds crazy
        F#
Its ridiculous to me
But without you by my side girl
You might think I'm incapable
Of loving a soul like yours
You might think I'm a fool
For you
Girl you got style
That's what I love about you
