Don't Look Back In Anger - Oasis

```
[Verse 1]
Slip inside the eye of your mind
         E7
Don't you know you might find
A better place to play
[Am, G] - Transition chords, played quickly
[Verse 2]
You said that you'd never been
           E7
But all the things that you've seen
Slowly fade away
[Prechorus]
            Fm
So I start a revolution from my bed
Cos you said the brains I have went to my head
                Fm
Step outside the summertime's in bloom
Stand up beside the fireplace
G#/E7
Take that look from off your face
Cos you ain't ever going to burn my heart ouuuuuuuuut
[Chorus]
                 E7
            Αm
So Sally can wait, she knows it's too late
        G
As we're walking on by
        G
               Αm
                        E7
Her soul slides away, but don't look back in anger
I heard you say
[Mini solo over once through the verse progression]
Note: I think this solo is mostly in A-minor pentatonic.
[Verse 3, prechorus, chorus, are all same progressions as earlier]
Take me to the place where you go
```

Where nobody knows

If it's night or day

Please don't put your life in the hands

Of a Rock and Roll band

Who'll throw it all away

Gonna start a revolution from my bed Cos you said the brains I have went to my head Step outside the summertime's in bloom

Stand up beside the fireplace
Take that look from off your face
Cos you ain't ever gonna burn my heart ouuuuuuuut

Chorus again:

So Sally can wait, she knows it's too late
As she's walking on by
Her soul slides away, but don't look back in anger
I heard you say

[Solo over prechorus chords]

Again, this solo is based mainly on pentatonic ideas. The length is once through the prechorus progression. Double the length if you want to solo a bit longer. Work those bends and kick some more emotion into an already emotional song!

[Drum fill]

Chorus again, but endings:

F (upstroke)
But don't look back in anger
Fm
Dont look back in anger
C

I heard you say

Once more through the verse progression, then end on:

С

At least not today
