

10 Lightyears Away - Scorpions

G

In a run down bed and breakfast

Em G Em G

A room with a view, across the river

G

I tried to loos the claustrophobia

Em G Em G

Opened up and find Ut-opia... u-topia

C D

There's no more de-nying

C D

As my mind goes flying

D G Em C G Am

10 light years away to save my soul

D G Em C G Am

10 light years away to change it all

D G Em C G Am

What-ever it may take I gotta try a-gain

C D

Girl it's time to start over

D G

10 light years away

I'd been watching the reflection

Of a bamboo in the shade, when I saw her

A very hot day in Havana

In a midnight blue lagoon

So try, get excited

I knew she was hiding

10 light years away so take me home

10 light years away to change it all

Help me find today It's been way too long

Girl it's time to start over

10 light years away

There's no more denying

As my mind goes flying

10 light years away to save my soul

10 light years away to change it all

Whatever it may take I gotta try again

Girl it's time to start over

10 light years away so take me home

10 light years away to change it all

Help me find today It's been way too long

Girl it's time to start over

10 light years away
