Act Naturally - The Beatles

```
F                             Bb
They're gonna put me in the movies
F                                 C7
They're gonna make a big star out of me
G                                     Bb
We'll make a film about a man that's sad and lonely
C7                            F
And all I got to do is Act Naturally

C7                            F
Well I'll bet you I'm gonna be a big star
C7                            F
Might win an Oscar you can't never tell
C7                       F
The movies gonna make me a big star
G7                        C7
'Cause I can play the par so well

F                                 Bb
Well I hope you come and see me in the movie
F                                 C7
Then I'll know that you will plainly see
G                             Bb
The biggest fool that ever hit the bigtime
C7                            F
And all I got to do is Act Naturally
```
