

Somewhere - The Rasmus

C G
Wake up the world is yours
Am F
Get lost, find a new course
C G
I'm gone, it's easier to clouse the door
Dm C G
I thought I loved it but my heart can't take no more

C G
Stand up, blindfold your eyes
Am F
You'll see, you'll be surprised
C G
For too long I've been the same
Am F
Time to explore
Dm C G
I thought I loved it but my heart can't take no more

C G
I'm on the road that leads me nowere
Am F
Shattered but I don't care
C G
I known the truth awaits me out there
Am F Dm
Don't try to reach I've gone somewhere

Too late my time is up
And I know, you'll never stop
Always
Until the end
You'll be my friend

I must admit it that my heart can't take no
I can't deny it and I cannot fake no...
I'm sick and tired and I just can't wait no more, no more

G Am F

I know, it's gonna change

I'm on the road that leads me nowere
Shattered but I don't care
I known the truth awaits me out there
Don't try to reach I've gone somewhere
