My Eyes - Travis

         Em
Deep in my heart there's no room for crying
But I'm trying to see your point of view
         Εm
               F
Deep in my heart I'm afraid of dying
            F
I'd be lying if I said I'm not
      F C
Welcome in welcome in
Shame about the weather
F C
Welcome in welcome in
E7 Am
Youre welcooome
     F
It's a sin it's a sin
    Where birds of a feather
    D7
Are welcome to land on you
Ya Ya Ya Ya Ya
You've got my eye-eyes
      F
                    Am
We can see what you'll be
   G C
You can't disgui-ise
         F
And either way I will pray
       G
                 E7
You will be wi-ise
                  D7 G
Pretty soon you will see tears in my eyes
С
             Em F
As each day goes by it makes way for another
               F G
We discover that we're not alone
