I Don't Wanna Fight - Westlife

```
I can't sleep, everything I ever knew
     G#m
          F#
                   Ε
                        F#
Is a lie without you
I can't breathe, when my heart is broke in two
           G#m
                  F#
                          Ε
There's no beat without you
                    F#
You're not gone but you're not here
                   F#
That's the way it seems tonight
C#m
                   F#
If we could try to end these wars
                   F#
I know that we can make it right
     F#
Cause baby
I don't wanna fight no more
I forgot what we were fighting for
And this loneliness that's in my heart
Won't let me be apart from you
I don't wanna have to try
        G#m
Girl to live without you in my life
So I'm hoping we can start tonight
                                         В
'Cause I don't wanna fight no more
How can I leave, when everything that I adore
                                 F#
                   G#m
And everything I'm living for
Girl it's in you
I can't dream, sleepless nights have got me bad
                                                      F#
                 G#m
                            F#
The only dream I ever had is being with you
                   F#
I know that we can make it right
                  F#
```

```
It's gonna take a little
                              time
         C#m
                              F#
Let's not leave ourselves with no way out
         F#
Let's not cross that line, that line
В
I don't wanna fight no more
I forgot what we were fighting for
And this loneliness that's in my heart
Won't let me be apart from you
I don't wanna have to try
       G#m
Girl to live without you in my life
So I'm hoping we can start tonight
                                        В
'Cause I don't wanna fight no more
Solo: B G#m
                  F# E F#
               F#
Remember that I made a vow that I would never
Let you go
                 F#
                                 В
I meant it than I mean it now and I want to tell
   Ε
You so
I don't wanna fight no more
I forgot what we were fighting for
And this loneliness that's in my heart
Won't let me be apart from you
I don't wanna have to try
Girl to live without you in my life
So I'm hoping we can start tonight
'Cause I don't wanna fight no more
I don't wanna fight no more
 Am
```

I forgot what we were fighting for

F

And this loneliness that's in my heart

G

Won't let me be apart from you

C

I don't wanna have to try

Am

Girl to live without you in my life

F

So I'm hoping we can start tonight

G

'Cause I don't wanna fight no more

Am G

It's all a lie

F G

Without you

С

Without you
