## The Queen Of My Heart - Westlife

```
С
So here we stand
In our secret place
With a sound of the crowd
So far away
And you take my hand
And it feels like home
           G
We both understand
It's where we belong
           F
So how do I say?
Do I say goodbye?
We both have our dreams
We both wanna fly
So let's take tonight
          F
To carry us through
           C F C
The lonely times
I'll always look back
  F
As I walk away
This memory will last
    G
for eternity
And all of our tears
Will be lost in the rain
When I've found my way back
to your arms again
But until that day
You know you are
              С
                        F
```

```
The queen of my heart
           С
Queen of my heart
So let's take tonight
And never let go
While dancing we'll kiss
Like there's no tomorrow
As the stars sparkle down
Like a diamond ring
I'll treasure this moment
Till we meet again
                 F
But no matter how far (matter how far)
Or where you may be (where you may be)
               Αm
I just close my eyes (I just close my eyes)
                F
And you're in my dreams
And there you will be
     С
Until we meet
I'll always look back
As I walk away
This memory will last
           G
for eternity
And all of our tears
Will be lost in the rain
When I've found my way back
to your arms again
But until that day
You know you are
               С
The queen of my heart
Queen of my heart
```
