White Girl - X

```
She's blonde
G A G A
Comes along the sidewalk
Leave a trail of blue and black
G A G A
Up to you fighting back
     G
Steel chains
G A
A noose of charms on our necks
I find out nothing when we talk and sit
             A G A
Blue hot passion and watch the set
Easy to fall
Part of your skull
G C G C
Starts to break away
Cheaters walk
Down the block
G C G
Behind this evil street
G D C
She's a White Girl
C D
But I'm livin' with a White Girl
C D C
She's a White Girl
C D C G A G A
But I'm livin' with a White Girl
Nineteen
          Α
             G A
Missin' her man for an old girl
Drain every beer left over at home
             A G A
Listen to ghosts in the other room
A G
Why not
G A
             G
You're alone inside his keeping
```
