Em D Am7 C D
     D
              Am7 C
I cannot find a way to describe it
                 Am7
                      C D
           D
It's there inside, all I do is hide
                 Am7
                       С
I wish that it would just go away
                                                      C
What would you do, you do, if you knew
What would you do
                                      C
               Εm
All the pain I thought I knew
              D
All the thoughts lead back to you
                  Em
                                         С
Back to what was never said
                D
                                          Α
Back and forth inside my head
I can't handle this confusion
        C D
I'm unable, come and take me away
Em D Am7 C D
I feel like I am all alone
All by myself I need to get around this
My words are cold, I don't want them to hurt you
If I show you, I don't think you'd understand
Cause no one understands
All the pain I thought I knew
All my thoughts lead back to you
Back to what was never said
Back and forth inside my head
I can't handle this confusion
I'm unable, come and take me away

I'm going no where (on and on and)
I'm getting no where (on and on and on)
```

I'm going no where (on and on and on and on)

(and off and on and off and on)

All the pain I thought I knew
All my thoughts lead back to you
Back to what was never said
Back and forth inside my head
I can't handle this confusion
I'm unable, come and take me away
