Believing - Calling, The

```
    A
I'm one man to make a difference
    E
I'm one soul all persistence
      D                                           A      E
In a dark world, just trying to make things right    yeah
    A
Choices we weren't given
        E
Any heroes, and our decision
        D                         E
Is to stand up and fight for ourselves, well yeah

        A
To be free
                  F#m
Is all we want to be
                D                 Bm
When everything seems so far out of reach
        A
But I know,
                F#m
no matter where we go
                  D         Dm
I'll never stop believing in me

Verse 2

      A
Woke up bent and broken
      E
Just to find that, well, fate has spoken
      D                         A
All I call out I call out for change
                      E
For every moment that remains
        D                 Dsus2
For every sinking stone to find its place
                      E
Long before they're washed away

{CHORUS:}

        A
To be free
                  F#m
Is all we want to be
                D                 Bm
When everything seems so far out of reach
```

```
       A
But I know,
                  F#m
no matter where we go
                   D           Dm
I'll never stop believing in me

Bm            D            Bm
We've been waiting for too long
Bm          D          Bm
We've been giving in to wrong
Bm              D              Dsus2
And we've been broken to pieces one by one

            E
We're gonna know
            D
We're gonna know
          A        E
When the moment comes

{CHORUS:}

        A
To be free
                   F#m
Is all we want to be
                D                    Bm
When everything seems so far out of our reach
          A
I need to know,
                 F#m
no matter where we go
                   D           Dm         A
I'll never stop believing in me    (2x)
```
