```
G              D
Look around, you should be,
Em                  C
Should be dancing, dance with me
G              D
Bottom line, we're wastin time
Em                  C
so I'ma say what's on my mind

A
I just want you to know,
C
That you're so so beautiful

G                              D
Baby I just want to be with you,
                           Em
I don't care if nobody approves,
C
Tell me what I gotta do
A                 C
To prove tonight, I might be the one, girl

Though we're caught in the moment,
The moment you know
That you want me to own it, To own it
Let's go....
A
And I need you to know,
C
That you're so so beautiful

Baby I just want to be with you,
I don't care if nobody approves,
Tell me what I gotta do
To prove tonight, I might be the one, girl
Baby I just want to be with you,
I don't care if nobody approves,
Tell me what I gotta do
To prove tonight , I might be the one, girl)

(same as verses)
Don't over-think it,
We don't have to leave yet
We're just havin fun,
What could go wrong
There ain't no question about it
I'm sayin it's you that I want
```

(Baby I just want to be with you,
I don't care if nobody approves,
Tell me what I gotta do
To prove tonight, I might be the one, girl
Baby I just want to be with you,
I don't care if nobody approves,
Tell me what I gotta do
To prove tonight, I might be the one, girl)

I might be the one, girl
