All For You - Imagine Dragons

```
Am
I get caught in the water
                          G
I get thrown in the wind
        Am        C
I can drown in the river
                    Em
While the sun burns down

        Am         C
I get tossed by the ocean
                    G
All deep in the sand
         Am          C
I'm drown out by the thunder
             Em
Lost in the land
```
