Inseparable - Jonas Brothers

```
Verse 1:
Bm
     Take my hand tonight We can run so far
We can change the world Do anything we want
Bm
   We can stop for hours  Just staring at the stars
They shine down to show us
Chorus:
Em
You know when the sun forgets to shine
                   Bm
I'll be there to hold you through the night
We'll be running so fast we can fly tonight
\operatorname{Em}
And even when we're miles and miles apart
                     Bm
You're still holding all of my heart
I promise it will never be dark
        Α
I know we're inseparable
Verse 2:
Bm
     We can run forever if you wanted to
I would not get tired because I'd be with you
But I'll keep singing this song until the very end
We have done all these things
Chorus
Bridge:
Εm
I will give it all
Never let you fall
D
```
