## Mirrors - Justin Timberlake

F# C#m Aren't you somethin' to admire, cause your shine is somethin' like a mirror F# And I can't help but notice, you reflect in this heart of mine F# C#m If you ever feel alone and the glare makes me hard to find Just know that I'm always peering out on the other side G#m Cause with your hand in my hand and a pocket full of soap C#m I can tell you there's no place we couldn't go G#m F# Just put your hand on the past, I'm here tryin' to pull you through You just gotta be strong Ε Cause I don't wanna lose you now I'm lookin' right at the other half of me The biggest seat is set in my heart There's a space, but now you're home Show me how to fight for now And I'll tell you baby, it was easy G#m Comin' back into you once I figured it out You were right here all along

It's like you're my mirror

```
(oh oh) My mirror staring back at me, staring back at me
```

```
F#
                                     C#m
Aren't you somethin' an original cause it doesn't seem we'll make a sample
                                  F#
And I can't help but stare cause I see truth somewhere in your eyes
                    F#
                                       C#m
ooh I can't ever change without you, you reflect me, I love that about you
                                     C#m
And if I could, I would look at us all the time
                   G#m
                                               F#
Cause with your hand in my hand and a pocket full of soap
               C#m
I can tell you there's no place we couldn't go
                  G#m
                                                       F#
Just put your hand on the past, I'm here tryin' to pull you through
            C#m
You just gotta be strong
Cause I don't wanna lose you now
I'm lookin' right at the other half of me
The biggest seat is set in my heart
There's a space, but now you're home
Show me how to fight for now
And I'll tell you baby, it was easy
Comin' back into you once I figured it out
 F#
You were right here all along
It's like you're my mirror
(oh oh) My mirror staring back at me
I couldn't get any bigger
F#
(oh oh) With anyone else beside of me
And now it's clear as this promise
                  C#m
That we're making two reflections into one
Cause it's like you're my mirror
(oh oh) My mirror staring back at me, staring back at me
```
