

A C# F#m D
Spotlight shining brightly on my face
A C# F#m D
I can't see a thing and yet i feel you walking my way

A E F#m D A E F#m
Empty stage With nothing but this girl
D Bm F#m
Who's singing a simple melody
F#m Bm E
And wearing her heart on her sleeve

A D
And right now
F#m E A
I have you
C# F#m D
For a moment i can tell i've got you
A
Cause your lips don't move
C#
And something is happening
F#m D
Cause your eyes tell me the truth
E F A
I've put a spell over you

A C# F#m D
Beauty emanates from every word that you say
A C# F#m
And captured the deepest thoughts
F#m Bm
in the purest simplest of ways
D
But you see

A E F#m
I'm not that graceful
D
Like you
A E F#m
Nor am i as eloquent
D C# F#m
But just a simple melody
D Bm E
Can change the way that you see me

D C#
And all my life i've stumbled
F#m D E
But up here i am just perfect
E C# Dm7 C# D
Perfect as i'll ever be
Chorus C# A

Cause I've put a spell over you
