

*D*                      *G*              *G A D*  
 In my rear view mirror the sun is going down  
*D*                      *G G A*  
 Sinking behind bridges in the road  
     *G*              *A*              *D A G*  
 I think of all the good things that we have left undone  
*Em*                      *Bm*  
 And I suffer premonitions, confirmed suspicions  
*Em*                      *A D A G G A D D A G G A D*  
 Of the holocaust to come

The rusty wire that holds the cork that keeps the anger in  
 Gives way and suddenly it's day again  
 The sun is in the east even though the day is done  
 Two suns in the sunset  
 Could be the human race is run

BRIDGE:

*Bm*                      *A Bm*  
 Like the moment when the breaks lock  
*Bm*                      *A*  
 And you slide towards the big truck  
*A G*                      *A D*  
 You stretch the frozen moments with your fear  
*Bm*                      *A Bm*  
 And you'll never hear their voices  
*Bm*                      *A*  
 And you'll never see their faces  
     *G A D*  
 You have no recourse to the law anymore

As the windshield melts and my tears evaporate  
 Leaving only charcoal to defend  
 Finally I understand the feelings of the few  
 Ashes and diamonds, foe and friend  
 We were all equal in the end
